STAGE MANAGER: Joseph Seifrit	Supertitles: Tyler Brumback
HOUSE MANAGER: David Kronenberg	

OVERVIEW: Tonight's show was a great one. We almost had a full house, we were at 95% capacity, but they were a very engaged audience. Last night we had some confusion in the audience whether to clap or not, tonight's performance had none of these issues. Strike took a little under 25 minutes to complete.

HOUSE NOTES: The lights in the lobby need to be turned off when the performance starts. If people come in late, the light distracts people from the production. Tonight, the lights got turned off half way through act I. This needs to be fixed for the next performance.

GENERAL NOTES: Overall, this was a great performance with little to no errors. But the actors had a great show tonight.

TECH NOTES: The floor lights, DSL, did not turn on with the rest of them, this issue did not occur last night.
